

GREY REPLIES IN BARALONG CASE

Willing to Submit Alleged Killing of Submarine Officers to Tribunal.

Associated Press Service: LONDON, Jan. 5.—A British official statement issued Tuesday says: "Sir Edward Grey (secretary for foreign affairs) has answered the complaint by the Germans through the American embassies regarding the destruction of the coast of Ireland of a German submarine and crew by the British auxiliary Baralong by referring to various German outrages. Sir Edward Grey offers to submit such incidents, including the Baralong case to an impartial tribunal composed, say of officers of the United States navy."

"The foreign office has presented to the house of commons the full correspondence between Ambassador Page and Sir Edward Grey concerning the case. A memorandum from Germany concerning the sinking of the submarine includes affidavits from six Americans—J. M. Garrett of Kilm, Miss.; Charles G. Hightower of Crystal City, Tex.; Bud Emerson Pallen of Detroit, Mich.; Edward Clark of Detroit; R. H. Cosby of Crystal City, and James G. Curran, Chicago. The above were all multiteers aboard the steamer Nicotia and witnessed the Baralong's destruction of the submarine."

"A further affidavit from Larimer Holland of Chattanooga, Tenn., who was a member of the crew of the Baralong, was submitted. All the affidavits speak of the Baralong as disguised and flying the American flag."

The British patrol boat Baralong, according to several multiteers on the British steamer Nicotia, which arrived in New Orleans early in October sank a German submarine Aug. 19 off Lundy. The multiteers said that marines from the Baralong killed the captain and the crew of the submarine after the underwater boat had been sunk, six of them while they were struggling in the water.

Good, at All Druggists, as Long as the Free Supply Lasts, for One 25-Cent Package of the New "External" Treatment That Relieves Colds Over Night—Croup in Fifteen Minutes.

Vick's "Vap-O-Rub," the new treatment recently introduced here from North Carolina, relieves croup and cold troubles by external application. There is no need to dose the stomach with injurious medicines. Its use is especially recommended to mothers with small children, as Vick's can be used freely and often without disturbing the delicate stomachs of the little folks. Plenty of fresh air in the bedroom and a little Vick's applied at the first sign of trouble will insure the children against croup and pneumonia and keep them free from head and chest colds, sore throat, etc. Vick's is absolutely harmless—formula on every wrapper. For all inflammations of the air passages, bronchitis, tonsillitis, catarrh, hoarseness, difficult breathing, etc., this new treatment will be found remarkably effective. Applied externally over the throat and chest the heat of the body releases soothing, antiseptic vapors, that are inhaled with each breath. At the same time Vick's is absorbed through the skin, taking out the soreness and tightness. In very severe cases the pores of the skin are first opened by applications of hot wet towels. Then Vick's is rubbed in well and covered with a warm flannel cloth. The covering around the neck is kept loose so that the vapor arising may be freely inhaled. No one understands the value of an "external" treatment better than
